Get that work done!

Whitening; is it for me?

Dear Valued Client,

Welcome back to our monthly E-Newsletter! We received so many compliments and congrats on our last issue, and we appreciate not only that you entrust us with your dental health, but also that you take the time to learn more about it!

Thank you, and enjoy the start to an exciting summer!

Our Mission

To be truly modern, today's dentistry should meet all of its patients' expectations. It should offer the most personalized care possible, in an attractive and comfortable environment. It should be dedicated to its patient's dental health, offering all the latest dental techniques and procedures. It should use advanced technology to create a beautiful mouth and a perfect smile for each patient, all while reducing any possibility of pain. It should accomplish all of this with friendliness, thoughtfulness and professionalism. At our practice, we strive to achieve the ideal in modern dentistry.

Our goal is to create a dental practice that is ideal for our patients, where each staff member is a highly-trained dental professional. A practice so agreeable that you feel cared for before you even sit in the chair overlooking downtown Baltimore. We are a practice that makes it possible for your dental dreams to come true, sculpting a smile that is second to none.

Your smile is important. It's one of the first things you notice when you meet someone. A whiter, brighter smile is beautiful - it can help you feel better about yourself and make a memorable impression.

Your lifestyle and the aging process can stain and darken your teeth. Many things we do on a regular basis can contribute to stained teeth, such as drinking coffee, tea, cola, and red wine or smoking. Whitening can get your smile looking its best.

Non-professional procedures and clinically unproven teeth whitening tips can often lead to unsatisfactory results. When weighing whitening options, you should look for a procedure that is:

- § Fast and convenient
- § Long lasting
- § Low sensitivity
- § Proven to be safe and effective
- § Performed by a Dental Professional
